

Maintenance Agreements

Through our customized instrument and system service agreements, we provide our customers with the best maintenance/calibration schedule possible for their process. Along with scheduled and demand services, PCS also provides system startup, installation, and turn-key projects. NIST traceable calibration certificates are available upon request.

Bench Repair/Calibration

OEM's have long lead times on repairs. PCS can repair or refurbish your equipment for a quicker turnaround. We strive for a ten day turnaround on all orders. All of our repairs receive a one-year unconditional warranty which meets or exceeds OEM standards. We provide NIST traceable calibrations and can operationally test with an in-house flow lab.

Field Service

DCS: Foxboro, Fisher, ABB Bailey, Honeywell
PLC: Allen Bradley, Modicon, GE Fanuc, Yokogawa
HMI: Wonderware, RSVIEW
Instrumentation: Foxboro, Rosemount, Honeywell, Bailey, E+H, Moore, Test Equipment Certification
Application, Engineering and System Integration
Turnkey Projects

Training

PCS frequently provides customized instrumentation theory and maintenance courses, as well as PLC and DCS courses. We provide in-house and onsite training classes specific to the equipment used within your facility.

Refurbished Equipment

Process Control Services understands that when you need to purchase a part for your system, you need it fast! For that reason we carry refurbished DCS and PLC parts for many different manufacturers. We have a 35,000 square foot warehouse stocked with refurbished equipment. Call today for price and delivery for exchanges and purchases.

Certifications

Our System specialists are ISA/CCST certified to ensure they provide quality support to all of our customers. Process Control Services has been ISO 9000 certified since 1994. The PCS quality management system is now certified as conforming to the standards of ISO 9001-2000 and ANSI/ISO/ASQ Q9001-2000 in categories for testing, calibration and circuit board repairs. We have also acquired our ISO-17025 accreditation under the scope of calibration.
